Unaudited Condensed Interim Financial Statements

For the Three Months Ended March 31, 2012

(Expressed in Canadian Dollars)

## **Notice of No Auditor Review of Interim Financial Statements**

Under National Instrument 51-102, Part 4, subsection 4.3(3) (a), if an auditor has not performed a review of the condensed interim financial statements; they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The management of YANGAROO Inc. is responsible for the preparation of the accompanying unaudited condensed interim financial statements. The unaudited condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and are considered by management to present fairly the financial position, operating results and cash flows of the Company.

The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor. These unaudited condensed interim financial statements include all adjustments, consisting of normal and recurring items, that management considers necessary for a fair presentation of the financial position, results of operations and cash flows.

## 1. Nature of Operations

YANGAROO Inc. ("Company") is a technology company that is targeted to become the leading enabler of user friendly and secure business to business distribution of media via the Internet. The Company's patented Digital Media Distribution System (DMDS) is a leading secure B2B digital delivery solution for the music and advertising industries. DMDS is a Web based delivery system that pioneers secure digital file distribution by incorporating biometrics, high value encryption and watermarking. DMDS replaces the physical distribution of audio and video content for music, music videos, and advertising to television, radio, media, retailers, award shows and other authorized recipients with more accountable, effective, and far less costly digital delivery of broadcast quality media via the Internet.

YANGAROO Inc. is a publicly listed company incorporated on July 28, 1999 under the laws of Ontario as Musicrypt.com Inc. and changed to its present name on July 17, 2007. YANGAROO trades on the TSX Venture Exchange (TSX-V) under the symbol YOO and in the U.S. under TCBB: YOOIF.

The address of the Company's corporate office and principal place of business is 18 Mowat Avenue, Toronto, ON M6K 3E8.

## 2. Basis of Preparation

### (a) Basis of Compliance

These unaudited condensed interim financial statements were prepared using the same accounting policies and methods as those used in the Company's audited financial statements for the year ended December 31, 2011. These unaudited condensed interim financial statements are in compliance with International Accounting Standard (IAS) 34, *Interim Financial Reporting*. Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB), have been omitted. The preparation of these unaudited condensed interim financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements have been set out in note 3 of the Company's financial statements for the year ended December 31, 2011.

These unaudited condensed interim financial statements have been prepared on a historical cost basis. These statements should be read in conjunction with the audited financial statements for the year ended December 31, 2011. These statements were approved by the Board of Directors on May 24, 2012.

(Expressed in Canadian dollars)

---

## 2. Basis of Preparation (continued)

### (b) Basis of Measurement

The condensed unaudited interim financial statements are presented in Canadian dollars, which is also the Company's functional currency. The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the condensed unaudited interim financial statements are disclosed in the following notes:

#### (i) Share-based payments

Share-based payments which include stock options granted to employees, officers and directors and warrants to the extent that they are not measured at the fair value of the services received are based on the fair value at the date of the award. These share-based payments are valued using Black-Scholes option pricing model. The assumptions used on the inputs to the model are provided in the audited financial statements for the year ended December 31, 2011.

#### (ii) Impairment of intangible assets

The Company assesses the carrying value of long-lived assets each reporting period to determine whether any indication of impairment exists. The calculation of recoverable amount requires the use of estimates and assumptions such as discount rates and operational performance of the Company.

### (c) Going Concern

The Company will have to raise additional capital to fund operations until such point that revenues from their technology are able to fund operations. If the Company is not able to raise sufficient capital then there is the risk that the Company will not be able to realize the value of its assets and discharge its liabilities. At March 31, 2012, the Company had negative working capital of \$4,996,607 and deficit of \$30,815,791. To date the Company has been successful raising capital. During the second quarter of fiscal 2012, the Company secured a private placement of equity units of a minimum of \$1,250,000 and up to a maximum of \$2,000,000 (note 11). The Company will issue the units at \$0.05 per unit. This is a partially brokered private placement and the Company currently has commitments for the minimum amount of the raise which is expected to close by the end of May 2012. The Company also received approval from Debenture holders to amend all of the existing debentures, by extending the timeline for repayment for an additional 36 months, and reducing the interest rate payable on the outstanding indebtedness from 18% to 14%. All proceeds raised were used to fund operations of the Company. As of May 24, 2012, the Company collected approximately \$193,500 of the above mentioned financing.

## 3. Significant Accounting Policies

The unaudited condensed interim financial statements are prepared in accordance with IFRS and follow the same accounting policies and methods of their application as the most recent audited financial statements for the year ended December 31, 2011. These unaudited condensed financial statements should be read in conjunction with those audited financial statements.

New standards and interpretations not yet adopted

The following accounting standards, amendments and interpretations have been issued but are not yet effective for the Company. Management is currently assessing the impact of the new standards on the Company's accounting policies and financial statement presentation.

- IFRS 9 *Financial Instruments* was issued by the IASB in October 2010 and will replace IAS 39 *Financial Instruments: Recognition and Measurement*. IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2015.
- IFRS 10 *Consolidated Financial Statements* was issued by the IASB in May 2011. IFRS 10 establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. IFRS 10 replaces the consolidation requirements in SIC-12 *Consolidation—Special Purpose Entities* and IAS 27 *Consolidated and Separate Financial Statements* and is effective for annual periods beginning on or after January 1, 2013. Earlier application is permitted.
- IFRS 11 *Joint Arrangements* was issued by the IASB in May 2011. IFRS 11 provides for a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form. The standard addresses inconsistencies in the reporting of joint arrangements by requiring a single method to account for interests in jointly controlled entities. IFRS 11 supersedes IAS 31 *Interests in Joint Ventures* and SIC-13 *Jointly Controlled Entities - Non-Monetary Contributions by Venturers*, and is effective for annual periods beginning on or after January 1, 2013. Earlier application is permitted.
- IFRS 12 *Disclosure of Interests in Other Entities* was issued by the IASB in May 2011. IFRS 12 is a new and comprehensive standard on disclosure requirements for all forms of interests in other entities, including subsidiaries, joint arrangements, associates and unconsolidated structured entities. IFRS 12 is effective for annual periods beginning on or after January 1, 2013. Earlier application is permitted.

# YANGAROO Inc.

Notes to the Unaudited Condensed Interim Financial Statements  
For the three months ended March 31, 2012  
(Expressed in Canadian dollars)

---

## 3. Significant Accounting Policies (continued)

New standards and interpretations not yet adopted (continued)

- IFRS 13 *Fair Value Measurement* was issued by the IASB in May 2011. IFRS 13 establishes new guidance on fair value measurement and disclosure requirements for IFRSs and US generally accepted accounting principles (GAAP). The guidance, set out in IFRS 13 and an update to Topic 820 in the FASB's Accounting Standards Codification (formerly referred to as SFAS 157), completes a major project of the boards' joint work to improve IFRSs and US GAAP and to bring about their convergence. The standard is effective for annual periods beginning on or after January 1, 2013. Earlier application is permitted.
- IAS 1 *Presentation of Financial Statements* was amended by the IASB in June 2011 in order to align the presentation of items in other comprehensive income with US GAAP standards. Items in other comprehensive income will be required to be presented in two categories: items that will be reclassified into profit or loss and those that will not be reclassified. The flexibility to present a statement of comprehensive income as one statement or two separate statements of profit and loss and other comprehensive income remains unchanged. The amendments to IAS 1 are effective for annual periods beginning on or after July 1, 2012.

## 4. Operating Line of Credit

The Company has available an operating line of credit of \$25,000. Borrowings under the operating line of credit are due on demand and bear interest at prime plus 2.5% per annum and are secured by a general security agreement. At period ended March 31, 2012, the Company had a balance outstanding of \$Nil (December 31, 2011 - \$Nil) on this line of credit.

## 5. Trade and Other Payables

---

	<b>March 31</b>	December 31
	<b>2012</b>	2011
Trade payables	\$ 436,413	\$ 294,647
Non-trade payables	353,875	348,017
	<b>\$ 790,288</b>	<b>\$ 642,664</b>

---

## 6. Debenture

On June 23, 2011, the Company issued \$2,500,000 principal amount of senior secured 18% non-convertible debentures (the "New Debenture"). As well on June 23 2011, the Company amended its previously issued \$818,000 principal amount 12% convertible debentures maturing March 31, 2012 (the "March 2012 Debentures") and \$1,125,000 principal amount convertible debentures maturing July 31, 2012 to reflect the terms of the New Debentures (the "July 2012 Debentures" and together with the March 2012 Debentures, the "Amended Debentures"). \$44,911 of interest that accrued on the March 2012 Debentures was added to the principal amount of the amended March 2012 Debentures.

# YANGAROO Inc.

Notes to the Unaudited Condensed Interim Financial Statements  
For the three months ended March 31, 2012  
(Expressed in Canadian dollars)

---

## 6. Debenture (continued)

Pursuant to their terms, the New Debentures and the Amended Debentures (collectively, the “Debentures”) are, among other things, non-convertible and repayable upon demand, after the first anniversary of their issuance, subject to the requisite determination of the holders of the outstanding Debentures to make demand for repayment. In addition, in the event of an asset sale in excess of \$3,000,000, the Company would be required to offer to repurchase a minimum of 50% of the outstanding Debentures, plus all accrued and unpaid interest due. Debenture holders would also have a right of first refusal to participate in future offerings by the Company, subject to the satisfaction of certain conditions. In turn, the Company may redeem the Debentures in the event that it has first raised a minimum of \$4 million of “net new cash”, which would include the proceeds raised from the issuance of the New Debentures but would exclude, among other things, the proceeds from the repayment of any debentures that, in turn, are used to fund the purchase of new securities of the Company. The non-convertible debentures are secured by all tangible and intangible assets of the Company.

In accordance with the rules of the TSX Venture Exchange, the Company also issued an aggregate of 13,521,504 “Bonus” common shares to purchasers of the New Debentures and holders of the previously issued debentures. Market value of \$0.07 per share was used to value the “Bonus” common shares for an aggregate value of \$946,505.

The securities issued and issuable pursuant to the transaction were subject to a hold period that expired on October 24, 2011.

The Company incurred cash financing costs of \$374,969, “Bonus” common shares of \$946,505 and 2,066,000 warrants with a fair value of \$78,281 (note 8) in connection with the transaction. These costs were allocated between the New Debentures and the previously issued convertible debentures on a pro rata basis resulting in \$606,011 of these costs being included in the loss on extinguishment of debentures and \$793,744 recorded against the carrying value of the New Debentures. The New Debentures are being accreted to its face value at a weighted average effective interest rate of 39.72%. The amendment to the debentures was accounted for as an extinguishment of the previously issued convertible debentures as they had yet to mature when the terms were modified on June 23, 2011. Also, the terms between current debentures and the previously issued convertible debentures are considered to be substantially different. Accordingly, the Company recorded a loss on the extinguishment of debentures of \$796,224 inclusive of the financing costs outlined above in the statement of comprehensive loss for the year-ended December 31, 2011.

During the second quarter, the Company obtained approval to extent the repayment terms of the debenture and reduce the interest rate from the holders of the debentures (note 2(c)).

## 7. Share Capital

The Company is authorized to issue an unlimited number of common shares.

The following is a summary of changes in common share capital from January 1, 2011 to March 31, 2012:

# YANGAROO Inc.

Notes to the Unaudited Condensed Interim Financial Statements  
For the three months ended March 31, 2012  
(Expressed in Canadian dollars)

## 7. Share Capital (continued)

	Number of shares	Value
Balance at January 1, 2011 and March 31, 2011	118,047,615	\$ 22,338,694
Issuance of "Bonus" common shares to purchasers of the newly issued debentures and holders of the previously issued convertible debentures on June 23, 2011 (note 6)	13,521,504	946,505
Balance at December 31, 2011 and March 31, 2012	131,569,119	\$ 23,285,199

### (a) Share-based payments

The Company has an Incentive Stock Option Plan (the "Plan"). The Plan provides for options to be granted to the benefit of employees, directors and third parties. The maximum number of shares allocated to and made available to be issued under the Plan is 11,804,761. In 2007, the board of directors adopted a new option pricing policy such that the exercise price of options granted under the Stock Option Plan is priced as the greater of the three months weighted average trading price prior to the grant and the closing trading price for the common shares for the last trading day prior to the grant. The term of any option granted shall not exceed the maximum permitted time period under applicable regulations. Unless otherwise provided in the Stock Option Plan, the options shall be cumulatively exercisable in installments over the option period at a rate to be fixed by the Board of Directors. Certain options become exercisable upon achieving predetermined performance milestones and are specific to the respective employee's agreement. The Company will not provide financial assistance to any optionee in connection with the exercise of options.

The Company had issued stock options to acquire common shares as follows:

Issuance date	Weighted average exercise price	Outstanding options	Vested options	Weighted average remaining life (years)
Balance at January 1, 2011	\$ 0.12	7,335,000	2,147,500	3.89

1,000,000	833,333	166,667	\$0.10	August 23, 2015
1,480,000	1,039,000	441,000	\$0.10	February 11, 2016
2,358,059	1,206,155	1,151,904	\$0.10	August 18, 2016
7,684,726	3,078,488	4,606,238	\$0.13	Weighted-average exercise price of vested options

The estimated fair value of the options is expensed over the vesting period. The fair value of the compensation and contributed surplus relating to the stock options for the three months ended March 31, 2012 was \$33,852 (March 31, 2011 - \$64,782). The fair value of all the Company's stock options was estimated using the Black-Scholes option pricing model.

(Expressed in Canadian dollars)

## 7. Share-Based Payments and Warrants (continued)

### (b) Warrants

	Number of warrants	Amount	Weighted average exercise price
Balance at January 1, 2011	30,713,000	\$ 761,298	\$ 0.10
Warrants issued	600,000	33,876	
Balance at March 31, 2011	31,313,000	\$ 795,174	\$ 0.10
Warrants issued	2,066,000	78,281	
Balance at December 31, 2011	33,379,000	\$ 873,455	\$ 0.10
Warrants expired	(27,908,000)	(628,830)	\$ 0.10
<b>Balance at March 31, 2012</b>	<b>5,471,000</b>	<b>\$ 244,625</b>	<b>\$ 0.10</b>

The Company had the following warrants outstanding and exercisable at March 31, 2012:

Number of warrants	Exercise price	Expiry date
750,000 (i)	\$0.10	August 24, 2014
2,055,000 (ii)	\$0.10	August 27, 2012
600,000 (iii)	\$0.10	February 11, 2013
2,066,000 (iv)	\$0.10	June 23, 2013
<b>5,471,000</b>		

- (i) These warrants were issued for services related to digital media workflow solutions. The warrants became exercisable after various phases of digital media workflow solution were completed.
- (ii) These warrants were issued to agents in connection with the private placement of units. The fair value of the warrants issued were estimated at the date of grant using the Black-Scholes model with the following weighted average assumptions: (I) dividend yield of 0%; (II) expected volatility of 153%; (III) a risk free interest rate of 1.25% and (IV) an expected life of 2 years.
- (iii) These warrants were issued to agents in connection with the issuance of convertible debentures. The fair value of the warrants issued were estimated at the date of grant using the Black-Scholes model with the following weighted average assumptions: (I) dividend yield of 0%; (II) expected volatility of 129%; (III) a risk free interest rate of 1.90% and (IV) an expected life of 2 years.

(Expressed in Canadian dollars)

## 7. Share-Based Payments and Warrants (continued)

### (b) Warrants (continued)

- (iv) These warrants were issued to agents in connection with the issuance of debentures. The fair value of the warrants issued were estimated at the date of grant using the Black-Scholes model with the following weighted average assumptions: (I) dividend yield of 0%; (II) expected volatility of 121%; (III) a risk free rate of 1.45%; and (IV) an expected life of 2 years.

Warrants issued to agents and related to financings were not measured at the fair value of the services received as the fair value of such services was not reliably measurable.

## 8. Loss per Share

	March 31 2012	March 31 2011
Numerator:		
Net loss and comprehensive loss for the period	\$ (777,860)	\$ (1,356,571)
Denominator:		
Weighted average number of common shares	131,569,119	118,047,615
Basic and diluted loss per share	\$ (0.01)	\$ (0.01)

For the above-mentioned periods, the Company had securities outstanding which could potentially dilute basic earnings per share in the future, but were excluded from the computation of dilutive net loss per share in the periods presented, as their effect would have been anti-dilutive. Such outstanding securities consist of the following:

	March 31 2012	March 31 2011
Options:		
Vested	4,606,238	2,228,500
Non-vested:	3,078,488	6,841,500
	7,684,726	9,070,000
Warrants	5,471,000	31,313,000

## 9. Commitments and Contingencies

### (a) Technology License Agreement

Pursuant to a licensing agreement dated June 28, 2007, the Company was granted a non-exclusive license to integrate a patented biometric technology (the "Intellectual Property") with their DMDS. The initial term of the License is for six years, automatically renewing for successive terms of one year after the initial five-year term and may be terminated by either party upon 180 days notice prior to the renewal date of the agreement. The Company must pay an additional annual maintenance fee based on the number of annual users, which at the Company's current usage results in a fee of \$5,400 per year.

### (b) Litigation

On November 14, 2000, the Company filed a claim against a former employee and shareholder, and related shareholders, seeking a rescission of their 1,250,000 common shares and damages in the amount of \$100,000. A counterclaim was brought against the Company by these defendants for various relief including damages of approximately \$850,000, a declaration that the defendants are shareholders and orders that they be bought out or the Company be wound up. In May 2001, the Company successfully defeated a motion by the defendants that sought condensed interim costs and security for costs. The Company was awarded its costs for this motion. The Company continues to vigorously defend the action. The amount cannot be estimated reliably, therefore no provision is recorded.

In the ordinary course of business activities, the Company may be contingently liable for litigation and claims with customers, suppliers and former employees. Management believes that adequate provisions have been recorded in the accounts where required.

### (c) Settlement of Patent Infringement

On June 24, 2011, the Company resolved all litigation with a competitor that had been ongoing since 2005. In consideration of the settlement, the Company agreed to pay its competitor a lump sum amount totalling \$600,000. As part of the settlement, the Company retained the patents and the rights and granted the competitor certain intellectual property rights relating to the two patents held by the Company that were the subject matter of the dispute. As well, neither party will pursue legal fees, court costs or royalties pursuant to the above mentioned disputes. The payment was made in the period.

## 9. Commitments and Contingencies (continued)

### (c) Settlement of Patent Infringement (continued)

The following is an account of the patent infringement litigation:

On July 25, 2005, the Company sent a letter to a competitor and its partners demanding that they cease infringement of the Company's Content Distribution System and Method patent number 2,407,774 in Canada. On March 7, 2006, the competitor filed a claim with the Federal Court of Canada requesting a ruling that the technology of the competitor and its partners does not infringe on this patent and that the patent was invalid. In June 2006, the Company filed with the Federal Court a statement of defence and counter claim seeking \$15 million in damages for infringement from the competitor and its partners. Examinations for discovery were conducted in 2007 into 2008 followed by motion appearances before the Court seeking orders compelling answers to questions refused. The Company was successful in obtaining a number of rulings in its favour including a ruling requiring the competitor to produce its software source code on a strict confidential basis for review by the Company's experts. The second round of examinations for discovery were completed, and were pending further answers motions and any follow up questions.

In May 2007, the competitor sued the Company for defamation and interference with their business claiming \$25 million in damages. Management is of the opinion that the suit is a meritless attempt to deflect attention from the company's patent infringement claim against the competitor. The Company has filed a statement of defence and counterclaim with the Federal court for \$25 million in damages from the competitor for defamation and interference with the Company's business.

On June 22, 2007, the Company filed a claim against a customer of the above competitor, requesting a declaration that the Company's Canadian patent, Content Distribution System and Method patent number 2,407,774 is valid and infringed by the use of the competitors technology and is seeking \$2 million in damages. In November 2007, a defence and counterclaim was filed seeking a declaration that the use of the competitor's technology does not infringe the patent and the patent is valid.

### (d) Leases

Total future annual lease payments for premises are as follows:

2012	\$ 35,186
------	-----------

# YANGAROO Inc.

## 10. Capital Risk Management

The Company includes equity; comprised of issued share capital, warrant capital, contributed surplus, equity portion of convertible debentures and deficit, in the definition of capital.

The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to further develop and market its digital media distribution systems, and to maintain its ongoing operations. To secure the additional capital necessary to pursue these plans, the Company may attempt to raise additional funds through the issuance of equity and warrants, debt or by securing strategic partners.

The Company is not subject to externally imposed capital requirements and there has been no change with respect to the overall capital risk management strategy during the three months ended March 31, 2012.

## 11. Subsequent Events

On April 16, 2012, the Company announced a private placement of a minimum of \$1,250,000 and up to a maximum of \$2,000,000 in units. Each unit will consist of one common share in the capital stock of the Company and one warrant, entitling the subscriber to purchase an additional share at \$0.10 per share within 36 months of closing. The Company will issue the units at \$0.05 per unit, resulting in the issue of a minimum of 25,000,000 shares and up to a maximum of 40,000,000 shares upon closing, non-diluted. This financing is a partially brokered private placement and the Company currently has commitments for the minimum amount of the raise.

The Company received approval from the Debenture holders to amend all of the existing debentures, by extending the timeline for repayment for an additional 36 months, and reducing the interest rate payable on the outstanding indebtedness from 18% to 14%.

The Company will pay an agent's fee to Fraser Mackenzie Limited on their portion of the raised proceeds, and will pay a finder's fee to certain other parties that assisted in the private placement. The net proceeds from the private placement will be used for general working capital. The proposed financing has been submitted to the TSX Venture Exchange ("TSX-V") for conditional approval, and is subject to TSX-V final approval.

As of May 24, 2012, the Company collected approximately \$193,500 of the above mentioned financing.
