Notes to the Condensed Interim Financial Statements (Unaudited)
For the three and nine months ended September 30, 2021 and 2020
(Expressed in Canadian dollars, unless otherwise noted)

1. Nature of Operations

YANGAROO Inc. ("Company") is a software company that is the provider of work-flow management solutions for the media industry. The Company's Digital Media Distribution System (DMDS) platform is an end-to-end technology solution that provides a fully integrated work-flow based digital distribution and data management solution. DMDS provides audio and video content for music, music videos, advertising to television, radio, media, retailers, award shows and other authorized recipients via the cloud in desktop and mobile platforms, as well as related work-flow services such as data analytics and program clearance data management.

YANGAROO Inc. is a publicly listed company incorporated on July 28, 1999 under the laws of Ontario as Musicrypt.com Inc. and changed to its present name on July 17, 2007. YANGAROO trades on the TSX Venture Exchange (TSX-V) under the symbol YOO and in the U.S. under OTCBB: YOOIF.

The address of the Company's corporate office and principal place of business is 67 Mowat Avenue, Suite 535, Toronto, Ontario, M6K 3E3.

2. Basis of Preparation

(a) Basis of compliance

These condensed interim financial statements were prepared using the same accounting policies and methods as those used in the Company's audited financial statements for the year ended December 31, 2020. These condensed interim financial statements are in compliance with International Accounting Standard (IAS) 34, *Interim Financial Reporting*. Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB), have been omitted. The preparation of these unaudited condensed interim financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies.

These condensed interim financial statements should be read in conjunction with the audited financial statements for the year ended December 31, 2020.

These condensed interim financial statements were authorized for issue by the Board of Directors on November 23, 2021.

(b) Basis of measurement

The condensed interim financial statements have been prepared on the historical cost basis except certain financial instruments recorded at fair value through profit and loss. Where there are assets and liabilities calculated on a different basis, this fact is disclosed in the relevant accounting policy.

The condensed interim financial statements are presented in Canadian dollars, which is also the Company's functional currency.

Notes to the Condensed Interim Financial Statements (Unaudited)
For the three and nine months ended September 30, 2021 and 2020
(Expressed in Canadian dollars, unless otherwise noted)

2. Basis of Preparation (continued)

The preparation of these condensed interim financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the condensed interim financial statements are as follows:

(i) Share-based payments

Share-based payments which include stock options granted to employees, officers and directors and warrants granted to agents and debenture holders, to the extent that they are not measured at the fair value of the services received, are based on the fair value at the date of the award. These share-based payments are valued using the Black-Scholes option pricing model, which includes inputs that require management's estimates and assumptions.

(ii) Revenue recognition

To the extent a contract includes multiple performance obligations, the Company applies judgment to determine whether these performance obligations are capable of being distinct and distinct in the context of the contract. If these criteria are not met the promised services are accounted for as a combined performance obligation. Additionally, recognition of revenue requires significant judgment to determine if revenue is recognized at a point in time or over time.

(iii) Investment tax credits

The Company uses judgment to determine the reasonable assurance of collection and estimates the valuation of investment tax credits to be accrued.

(iv) Functional currency

The Company uses judgment to determine the Company's functional currency.

(v) Collectability of accounts receivable

The Company applies the simplified method to measure loss allowance on accounts receivable at an amount equal to the lifetime expected credit loss (ECL).

(vi) Leases

The Company uses judgment to determine the incremental borrowing rate used to calculate the initial liability and corresponding asset. The incremental borrowing rate is the rate of interest that a lessee would have to pay to borrow over a similar term, with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

YANGAROO Inc.

Notes to the Condensed Interim Financial Statements (Unaudited)
For the three and nine months ended September 30, 2021 and 2020
(Expressed in Canadian dollars, unless otherwise noted)

2. Basis of Preparation (continued)

(vii) Capitalized development costs

The Company uses judgement to determine when internally generated development costs is available for intended use and assessing if expenditures meet the criteria for capitalization under IAS 38.

(viii) Business combinations

On initial recognition, the assets and liabilities of the acquired business and consideration paid for them are included in the statement of financial position at their fair value. In measuring fair value, management uses estimates of future cash flows and discount rates.

(ix) Contingent consideration

The Company measures the contingent consideration payable in a business combination at the estimated fair value at each reporting date. The fair value is estimated using the Black-Scholes option pricing model, which includes inputs that require management's estimates and assumptions.

3. Significant Accounting Policies

These condensed interim financial statements follow the same accounting policies and methods of their application as the Company's December 31, 2020 annual audited financial statements.

4. Capital Risk Management

The Company includes equity comprised of share capital, contributed surplus, and deficit, in the definition of capital.

The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to further develop and market platform services, and to maintain its ongoing operations. To secure the additional capital necessary to pursue these plans, the Company may attempt to raise additional funds through the issuance of equity and warrants, debt or by securing strategic partners.

The Company is not subject to externally imposed capital requirements and there has been no change with respect to the overall capital risk management strategy during the period ended September 30, 2021.

5. Comparative Figures

Commissions and production costs were reclassified to Salaries and Consulting expenditures and Technology Development expenditures. Co-location expenditures were reclassified from General and Administrative expenditures to Technology Development expenditures. Net income is not affected by these comparative period reclassifications.

YANGAROO Inc.

Notes to the Condensed Interim Financial Statements (Unaudited)
For the three and nine months ended September 30, 2021 and 2020
(Expressed in Canadian dollars, unless otherwise noted)

6. Business Combination

On May 21, 2021, the Company completed the acquisition of certain assets and liabilities of Digital Media Services Inc. (“DMS”) and all of its subsidiaries for cash and contingent consideration. DMS is a provider of broadcast advertising and content management solutions located in New York City, United States of America.

As part of the acquisition, the Company acquired DMS’ customer lists and contracts, and working capital, along with a highly skilled team of employees located in the United States.

The purchase price consists of cash consideration of \$3,812,212 and contingent consideration with a fair value of \$2,666,513, resulting in total consideration of \$6,478,725. The contingent consideration consists of additional cash payments to the seller for attainment of specific revenue metrics over a three-year period following the date of the acquisition.

The following table presents the purchase price allocation at the acquisition date:

Fair value of assets and liabilities recognized:	
Trade receivables	\$ 912,798
Prepaid expenses	31,881
Customer relationships	1,681,303
Brands and trademarks	213,480
Trade payables and accrued liabilities	(190,683)
Fair value of net assets acquired	\$ 2,648,779
Goodwill	\$3,829,946
Total consideration	\$ 6,478,725

The acquisition has been accounted for as a business combination under the purchase method. The results of the operations of the DMS business since the date of the acquisition have been consolidated in these interim financial statements. Accordingly, the allocation of the purchase price to assets and liabilities is based on the fair value, with the excess of the purchase price over the fair value of the assets acquired being allocated to goodwill.

The goodwill is attributable mainly to the skills and technical talent of DMS’ work force and the synergies expected to be achieved from integrating DMS into the Company’s existing advertising business.

YANGAROO Inc.

Notes to the Condensed Interim Financial Statements (Unaudited)
For the three and nine months ended September 30, 2021 and 2020
(Expressed in Canadian dollars, unless otherwise noted)

6. Business Combination (continued)

Due to lack of IFRS specific data prior to the acquisition of DMS, pro-forma profit or loss of the combined entity for any periods prior to acquisition cannot be determined reliably. At the time of issuance of these condensed interim financial statements, certain aspects of the valuation are not finalized. As such, the preliminary purchase price allocation is subject to change.

In connection with the DMS acquisition, the Company incurred fees, including legal and professional costs, of \$433,574.

12. Credit Facility

On May 21, 2021, in conjunction with the acquisition of DMS (see Note 6 – Business Combination), the Company settled its then existing \$1,000,000 revolving credit facility and entered into a credit agreement (the “Credit Facility”) with a tier-1 Canadian financial institution (the “Bank”). The Credit Facility is secured by a first ranking security over all present and future assets and property of the Company.

The Credit Facility includes a new revolving credit facility in the amount of \$1,750,000 and a term loan facility in the amount of \$3,250,000.

Revolving Credit Facility

The revolving credit facility of \$1,750,000 is available by loan advances and is subject to standard borrowing base calculations and margining against trade accounts receivable. Interest payments are based on the Bank’s prime rate plus 1.95% per annum. As at September 30, 2021, the Company has drawn \$nil of the revolving credit facility.

12. Credit Facility (continued)

Term Loan Facility

The term loan facility of \$3,250,000 was fully advanced on May 21, 2021 and was used for the purchase of DMS and for general corporate purposes. The term of the loan is 42 months, amortized over 72 months, and has an initial 6-months interest only payment component. Interest payments are based on the Bank's prime rate plus 2.45%.

Long-term portion of term loan	2,624,664	-
Balance at September 30, 2021	\$3,108,169	\$ -

The Company incurred \$166,065 of transaction fees and has recorded these as deferred financing costs that are being amortized over the expected duration of the term loan facility. During the three and nine-month ended September 30, 2021, \$24,234 of deferred financing fees was amortized.

In accordance with the terms of the Credit Facility, on a rolling four-quarter basis, the Company must maintain a minimum Fixed Charge Coverage Ratio of not less than 1.20:1.00 and an Interest-Bearing Debt to EBITDA ratio of no more than 3 times between closing to December 31, 2021.

As at September 30, 2021 the Company was in compliance with all covenants of the Credit Facility.

13. Share Capital

The Company is authorized to issue an unlimited number of common shares.
